No. 2019-1-EE01-KA204-051675

Training in Croatia in September 2021:

trying out methodology for implementing critical thinking in educational programmes for experienced adult educators
On September 13-17, 2021 the NEWS team organized five days of training for experienced adult teachers from all project partner countries. The training took place in Čakovec, Croatia.

Each partner organized training in the area where their organization is more experienced: Croatia - general methodology, Slovakia - critical thinking, Spain - media literacy, Croatia and Germany - foreign languages, Estonia and Lithuania - information technology. The training took place in an interesting way, using a variety of teaching methods that encourage creativity and critical thinking. The tasks sparked a lot of discussions, laughter and even heated controversy. After all, it is not in vain that truth is born in disputes.

Training in Estonia in January 2022:

trying out methodology for implementing critical thinking in educational programmes for the new adult educators.
The project NEWS started with an important event in 2022: a workshop for the new adult educators that was organized on 24-26 January in Saaremaa, Estonia, with the participation of new educators from all partner countries.
The following trainings were conducted by experienced educators from all partner countries participating in the project.
Engaging and captivating activities accelerated a great mood through all the days.
The material was very interesting and the following up discussions were truly inspiring.
Everyone particularly enjoyed visual illustrations and practical tasks which made the content easily understandable and comprehensible.
Everyone who took part in the workshop really enjoyed it.

Here you can read some comments from the participants:

Trainings were great!

I found it really useful and it went beyond my expectations !!!!!

I felt very welcome and relaxed during the time of the training. Thank you all!

I got much inspiration

Discussions and exchanging of experiences were the most important things during the training
